

Course Summary:	How easy would it be for the security professional if everyone's intention would be transparent like Wikileaks documents? This program strips everyone naked without the assistance of any machine. Participants will learn how to read facial expressions, body language, and deception techniques and to associate those with signs of lies .
------------------------	---

Performance Objectives:
<ol style="list-style-type: none"> 1. Describe elements to conduct effective security questioning. 2. Identifying signs of lies. 3. Reading body language and determining good or bad intention of individuals. 4. Explain how to contradict social engineering and bad intention bearers. 5. Explain how to add non-abrasive security cycles to the security framework.

Day	Time Begin (24 Hour)	Time End (24 Hour)	Subject or Topic	Instructional Methodology
